

CLASSROOM GUIDELINES

1. Students must be to class on time and in their assigned seats and may not leave their seats without permission.
2. Students are only allowed in the Bio-lab under teacher supervision.
3. Students must come to class prepared. (notebooks, text, pen, etc.)
4. Food or beverages are not permitted in the classroom.
5. Homework is not to be done in the classroom, unless the teacher allows you to begin it, at or near the end of the period.
6. Any missed tests or quizzes must be made up the day the student returns from an absence, unless he/she has missed two or more consecutive days. The student should consult with the teacher as to the make-up of the work. Test or quizzes are not made up during class.
7. Missed lab work can be made up after school. The teacher may assign a 500 word paper or some other project in place of the missed lab work.
8. While the results of the lab partners should be the same, the interpretation of the results (conclusion) should be expressed on an individual basis. This does not mean that the results can not be discussed between lab partners or with the teacher.
9. Touching anything in the lab without authorization will be considered destruction of school property.
10. Students are encouraged to participate in class when appropriate
11. Behavior during class is to be appropriate and respectful.
12. Previously owned text books may be used, but homework variations may be issued at the teacher's discretion. Previously owned workbooks may not be used.
13. You will receive no credit if homework is not completed on time.

EVALUATION SUMMARY

* Homework average equals 10% of grade Quiz average equals one test grade
Lab average equals one test grade Test average is approximately 50% of the grade

* Your homework grade will only be factored in with your other grades if it increases your average.

I have read and understand the classroom guidelines of this course.
